

Spring Services

1. Inground Pool - No Cover
 - A.) Reinstall all portable pool equipment. Test and chemically balance pool water (price of chemicals not included.) Clean tile, skimmers, and deck. This does not include vacuum cleaning the pool. Automatic pool cleaners will not be put in the pool and tested on opening because they will stir up winter fallout debris and cause the pool water to become cloudy. If a return trip is needed to repair or adjust cleaner, there will be an \$95.00 per hour service charge.
 - B.) Filter - Reassemble filter, heater, and motors. Light pilot on heater and check operation of all systems.
2. Inground Pool - w/Mesh Cover
 - A.) Pool - Same as 1.A.
 - B.) Filter - Same as 1.B.
 - C.) Mesh Cover - Debris removed, cover removed, pop ups put down, and cover stored on your premises
3. Mesh Cover Storage

We prefer to store mesh covers on your premises, in a place designated by you. We will, however, store in our warehouse, but will not be responsible for holes in cover due to mice, insects, or abrasions due to transport storage, or handling.
4. Inground Pool w/Solid Cover
 - A.) Pool - Same as 1.A.
 - B.) Filter - Same as 1.B.
 - C.) Solid covers - Remove cover from pool, and clean water tubes. Cover and water tubes will be stored on your premises.
5. Inground Pool w/Solid Safety Cover
 - A.) Pool - Same as 1.A.
 - B.) Filter - Same as 1.B.
 - C.) Solid covers - Remove cover from pool, pop ups put down and cover stored on your premises.
6. Inground Pool w/Foxx Cover
 - A.) Pool - same 1.A.
 - B.) Filter - Same as 1.B.
 - C.) Foxx Cover - Remove cover from pool, and store in container provided by customer with Vinyl Store (provided by Gallagher Pools & Spas at additional cost). Cover will be stored on your premises.
7. Above Ground - No Cover
 - A.) Filter - Same as 1.A.
 - B.) Filter - Same as 1.B.
8. Above Ground w/Cover
 - A.) Filter - Same as 1.A.
 - B.) Filter - Same as 1.B.
 - C.) Cover - Remove cover from pool & clean water tubes. Cover, water tubes and/or cable will be stored on your premises
9. Above Ground w/Mesh Cover
 - A.) Filter - Same as 1.A.
 - B.) Filter - Same as 1.B.
 - C.) Cover - Remove cover from pool. Cover will be stored on your premises
10. Pump Off Solid Cover / Leaf Removal

If water is left on cover and we have to set up our trash pump to remove water. If leaves are left on cover but water is pumped off you will still be charged. If water or debris is on cover when it is removed, pool water level may be below normal operating level, which will require a return trip/extra charge.
11. Solid Cover Storage

Solid Cover Storage - Same as 3.
12. Solid Safety Cover Storage

Solid Safety Cover Storage - Same as 3.
13. Empty & Clean
 - A.) Pool - Same as 1.A.
 - B.) Filter - Same as 1.B.

We will empty pool with our pump and clean surface with a suitable cleaning agent. When acid is needed, we Neutralize the water as it is being pumped out to protect our environment. This also includes a return trip after pool is filled, to start up and balance the pool. (Price for chemicals needed to start up and balance water are not included.)
14. Spa Attached To Pool/Filter

This is a pool / spa combination on the same filter system.
15. Spa Separate From Pool/Filter

This is a pool with a spa that has it's own separate system.
16. In-Floor Cleaning System Per Head

We will assemble in-floor cleaning system.
17. Vacuum Pool Same Day As Opening (Per Hour)

Vacuum pool per hour on the same day as opening. It is possible that more than 1 visit to vacuum may be necessary. Extra visits billed as Return Trip.
18. Return Trips (Per Hour)

Pool should be filled upon our arrival to normal to high operating level. If your cover is still on pool, we encourage you to remove water and debris and fill pool under the cover. Any return trip needed to backwash, vacuum, brush, check water, program controllers, or replace parts or equipment not on truck will be \$95.00 per visit per hour.

THANK YOU YOUR COOPERATION AND CONTINUED PATRONAGE!!
